MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY STRUCTURE AND DEVELOPMENTS:

Overview of the Industry In FY 2019:

Over the last three decades and today very few offices and businesses remain untouched by the information revolution. Digital Transformation market size is projected to be around US\$ 462 billion by 2023. The ability of the microchip to store and process information has radically changed business lifeglobally and in India as well. Many businesses have gone out of the play because they did not integrate IT into their business operations when their competitors did, or because they did computerise but went about it in the wrong way. Therefore it is vital that managers are well versed with the uses and potential of IT. IT has relevance not only for business arena, at the same time it is beneficial to society and its individual members also.

The global Enterprise Software Market is projected to witness a steady CAGR of around 5.47% during 2016-2022 while the global staffing revenue is around \$461 billion with a forecasted growth of 7%. IT Services is estimated to have grown by 2.4% year on year, driven by digital demand. Your Company has historically grown much faster than the market, driven by significant market share gains on account of a superior capabilities, greater participation in the digital opportunity and track record in taking on and successfully executing large, transformational programs.

INFORMATION TECHNOLOGY SECTOR: INDIAN PERSPECTIVE

The revenue aggregate of Information Technology- Software Development and Human Resource i.e. activities of employment placement activities(IT-HR)industry is expected to grow dramatically and was expected to reach multi-fold billions by the end of this decade and the following decades.

COMPANY OVERVIEW:

Your Company is an IT services in software development, consulting and Human Resource business solutions organization offering transformational as well as outsourcing services i.e. listing employment vacancies and referring or placing applicants for employment, where the individuals referred or placed are not employees of the employment agencies. This also includes on-line employment placement agencies due to which we are targeting every C-suite stakeholder. The Company uses all these, and its industry leading suite of platforms to deliver high quality, high impact solutions leveraging the latest technologies and Human Resources to customers.

Magellanic Cloud executes complex IT Projects for its customers worldwide. The key deliverables are around DevOps, which consists of Cloud Migrations, Platform Migration, MS Azure and Amazon Cloud Administration, Application Delivery and AD optimization. Other Projects consist of Human Capital, such as IT staffing and placing that go with complex projects. In the Digital Transformation space we operate projects such as Digital Workplace, Application Rationalization, Digital Asset Management and Change Management. All Projects are a mix of Human Capital, Software and Services.

STRATEGY:

Your Company has successfully navigated through multiple technology cycles over the last years, pivoting and adapting each time to build relevant new capabilities and helping our clients realize the benefits of that new technology. Our responsiveness, agility and adaptability to change have been core to our progess. Customer-centricity is at the core of South India Projects Limited' strategy, organization structure and investment decisions. The philosophy has been to expand and deepen customer engagements by continually

looking for new areas in the customer's operational value chain where your company can add value, and to proactively invest in building newer capabilities to participate in those opportunities. This has resulted in a continual expansion of every customer relationship in terms of the services consumed, revenue and share of wallet. The willingness to invest in the relationship, the commitment to deliver outstanding outcomes and the track record of execution excellence has resulted in high satisfaction levels and long, enduring customer relationships.

The Magellanic Cloud Go-To-Strategy:

Our strategy is built around an eco-system of companies with critical synergy. This allows us to reach target markets faster and achieve a competitive advantage."

Magellanic Cloud consists of companies that are very close to the reality of the terrain with each it's unique skillset and market place.

On the other hand, synergy, shared services and corporate resources reduce costs and allows proven operating standards. This full integration enables cross-sell throughout our holding company, guaranteeing higher growth and better margins.

Over time, every customer engagement results in the build-up of deep contextual knowledge of the customer's business which is leveraged to build innovative, transformative solutions.

THE CHALLENGE OF CHANGE

A major feature of Information Technology is the changes that IT brings, those who speak of a revolution from technology are really talking about change. Business and economic conditions change all the time; a revolution is a discontinuity, an abrupt and dramatic series of changes in the natural evolution of economies.

The major challenges involved that affect the industry of your company is the ever changing software developments happening word wide as well as the need for continuous research for the improvements required by the company to compete in the markets and developments in IT software also affects the employment placement activities of the companies in the industry as the requirements of the clients changes as per the developments with respect to the developments in the software in the industry and your company is required to meet those needs.

STRENGTHS:

At Magellanic Cloud we provide software and employment placement agency services i.e. listing employment vacancies and referring or placing applicants for employment, where the individuals referred or placed are not employees of the employment agencies. This also includes on-line employment placement agencies and due to the effective internal control measures and continuous research and development the company is doing good in terms of the industry competitors.

Magellanic Cloud operates in the Information Technology space. In this wide spectrum we focus on key growth market areas such as Digital Transformation, Cloud Migration, DevOps, Application Rationalization and Digital Asset Management.

We optimize efficiency through tools, processes and people. Therefore, our IT Staffing companies play a key role in accelerating digital transformation using sheer brainpower.

Providing excellent return on investments for our customers while mitigating risk and macro events, Magellanic Cloud provides an investment strategy that keeps a balance between risk and benefit. Magellanic Cloud operates in clearly defined market places. These markets are generally trending, predictable in its nature and represent significant ongoing growth.

OPPORTUNITIES:

Your Company on its part is also well poised to seize new opportunities as they come and due to the evergrowing business opportunities in the IT Software developments and Human Resource sector with the developments in technology there is a huge scope for growth to your Company. There are a numerous client base which can be targeted for development of the scope and business.

WEAKNESS:

The Company is trying to strengthen its network base and link of clients that it deals with. The Company has significant business presence which it is trying to increase.

THREATS

As the developments in technology with respect to software with respect to information technology is a blessing it is also a huge threat due to the continuous developments in the same but as the your company has good research and development encouragement it is not a major threat to your company. The overcoming of various immediate regulations and policy changes in the countries where your company has clients also is also considered to be a threat to the company.

INTERNAL CONTROL SYSTEM AND ADEQUACY:

Internal control systems and procedures in the Company are commensurate with the size and the nature of Company's business and are regularly reviewed and updated by incorporating changes in internal regulatory provisions in order to safeguard the assets and to ensure reliability of financial reporting. There is a continuous upgradation of knowledge with respect to software developments which is encouraged byyour Company.

HUMAN RESOURCES:

The Company continues to give priority to its human assets. The Company provides a fair and equitable work environment to all its employees. The Company is continuously working to create and nurture an atmosphere which is highly motivated and result oriented.

INDEPENDENT AUDITOR'S REPORT

To the Members of Magellanic Cloud Limited (Formerly known as South India Projects Limited)

Report on the Financial Statements

Opinion

We have audited the accompanying financial statements of Magellanic Cloud Limited ("the Company"), which comprise the Balance Sheet as at 31st March, 2019, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement, the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2019, and its profit, total comprehensive income, its cash flows and changes in equity for the year ended on that date.

Basis of Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls. The were operating effectively for ensuring the accuracy and completeness of the accounting policies and completeness of the accounting policies.

Chartered Accountants

to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Report on Other Legal and Regulatory Requirements

Annexure - B to the Auditors' Report

To the Members of Magellanic Cloud Limited (Formerly known as South India Projects Limited)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Magellanic Cloud Limited ("the Company") as of 31 March 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Magellanic Cloud Limited (formerly known as South India Projects Limited) Notes to the financial statements for the year ended March 31, 2019

1. Company overview

South India Projects Limited ("the company") has its place of business is in Hyderabad and registered office is in Kolkatta.

2. Basis of preparation of financial statements

a) Accounting convention

The financial statements are prepared in accordance with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by the companies (Indian Accounting Standards) Amendment Rules, 2016

b) Basis of measurement

The financial statements have been prepared on an accrual basis and in accordance with the historical cost convention, unless otherwise stated. These financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act. All assets and liabilities are classified into current and non-current based on the operating cycle of less than twelve months or based on the criteria of realisation/settlement within twelve months period from the balance sheet date.

c) Key accounting judgement, estimates and assumptions

The preparation of the financial statements required the management to exercise judgment and to make estimates and assumptions. These estimates and associated assumptions are based on historical experiences and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an on-going basis. Revision to accounting estimates are recognised in the period in which the estimate is revised, if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future period.

d) Functional and presentation currency

The functional and presentation currency of the Company is the Indian Rupee.

e) Foreign currency transaction

Foreign currency transactions are translated at the exchange rate that approximates the prevalent exchange rate on the transaction date. Monetary assets and liabilities in foreign currencies are translated at the year-end rate. Non-monetary assets and liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

3. Significant Accounting Policies

The Company has applied the following accounting policies to all periods presented in the financial statements.

Magellanic Cloud Limited (formerly known as South India Projects Limited) Notes to the financial statements for the year ended March 31, 2019

a) Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable, and represents amounts exclusive of excise duty receivable for goods supplied, stated net of discounts, returns and value added taxes. The company recognises revenue when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the entity; and when specific criteria have been met for each of the Company's activities, as described below.

Sale of Goods and services

Sales are recognised when the significant risks and rewards of ownership of the goods are transferred to the buyer as per terms of contract. Income and fees from services are accounted as per terms of relevant contractual agreements/arrangements.

Revenue from sale of power is recognised when delivered and measured based on rates as per bilateral contractual agreements with buyers and at rate arrived at based on the principles laid down under the relevant Tariff Regulations as notified by the regulatory bodies, as applicable.

Interest Income

Interest income is recognised on accrual basis as per the terms of relevant contracts or by using the effective interest method, where applicable.

Investment income

Incomes from investments are accounted on an accrual basis.

b) Property, Plant and Equipment

Transition to Ind AS:

The Company has elected to continue with the net carrying value of all its property, plant and equipment recognized as of April 1, 2016 (transition date) as per the previous GAAP and use that carrying value as its deemed cost.

- i) Recognition and measurement: Property, plant and equipment are carried at cost of acquisition less accumulated depreciation and accumulated impairment loss, if any. Subsequent expenditure related to an item of fixed asset are added to its book value only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All repairs and maintenance are charged to the Statement of Profit and Loss during the financial year in which they are incurred.
- ii) Depreciation: Land is not depreciated. Depreciation of other items of Property, Plant and Equipment are provided on a straight line basis over the estimated useful life of the asset or as prescribed in Schedule II to the Companies Act, 2013 or based on technical evaluation of the asset. Estimated useful life of items of property, plant and equipment are as follows:

Type of Asset	Estimated Useful Life
Freehold Land	N.A
Furniture & Fittings	10 years
Computers & Printers	3 years
Motor Vehicles	8 years
Office Equipment's	5 years

Magellanic Cloud Limited (formerly known as South India Projects Limited) Notes to the financial statements for the year ended March 31, 2019

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

The Company assesses at each balance sheet date whether there is objective evidence that an asset or a group of assets is impaired. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing the sale proceeds with the carrying amount and are recognised within operating profit in the Income statement.

c) Financial Instruments

Financial Assets

The Company classifies its financial assets in the following categories:

- Financial assets at amortised cost Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost.
 - They are presented as current assets, except for those maturing later than 12 months after the reporting date which are presented as non-current assets. Financial assets are measured initially at fair value which usually represents cost plus transaction costs and subsequently carried at amortised cost using the effective interest method, less any impairment loss if any.
 - Financial assets at amortised cost are represented by trade receivables, security and other deposits, cash and cash equivalent, employee and other advances.
- ii) Equity investments/Investment in LLP Investment in subsidiaries and LLP are stated at cost. All other equity investments are measured at fair value, except for certain unquoted equity investments which are carried at cost where the fair value of these investments cannot be reliably measured.
- iii) Financial Assets at Fair Value through Other Comprehensive Income (FVTOCI) For investments which are not held for trading purposes and where the company has exercised the option to classify the investment as at FVTOCI, all fair value changes on the investment are recognized in OCI. The accumulated gains or losses on such investments are not recycled to the Statement of Profit and Loss even on sale of such investment.
- iv) Financial assets at Fair Value through Profit and loss (FVTPL) Financial assets other than the equity investments and investment classified as FVTOCI are measured at FVTPL. These include surplus funds invested in mutual funds etc.
- v) Impairment of financial assets The Company assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Mus mus

Financial liabilities

Initial recognition and measurement

Financial liabilities are measured at amortised cost using effective interest method. For trade and other payable maturing within one year from the Balance Sheet date, the carrying value approximates fair value due to short maturity.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Balance Sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

d) Employee benefits

The Company operates various post-employment schemes, including both defined benefit and defined contribution plans:

Defined contribution plan:

Contributions to defined contribution schemes such as contribution to Provident Fund, Employees' State Insurance Corporation, National Pension Scheme and Labours Welfare Fund are charged as an expense to the Statement of Profit and Loss based on the amount of contribution required to be made as and when services are rendered by the employees. The above benefits are classified as Defined Contribution Schemes as the Company has no further defined obligations beyond the monthly contributions.

Defined benefit plan:

Gratuity:

Gratuity liability is a defined benefit obligation and is computed on the basis of an actuarial valuation by an actuary appointed for the purpose as per projected unit credit method at the end of each financial year. The liability or asset recognised in the Balance Sheet in respect of defined benefit pension and gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The liability so provided is paid to a Trust administered by the Company, which in turn invests in eligible securities to meet the liability as and when it accrues for payment in future. Any shortfall in the value of assets over the defined benefit obligation is recognised as a liability with a corresponding charge to the Statement of Profit and Loss. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on Government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur directly in Other Comprehensive Income. They are included in retained earnings in the Statement of changes in equity and in the Balance Sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

e) Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. If the effect of the time value of money is material, provisions are discounted. The discount rate used to determine the present value is a pre- tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

f) Income Tax

a) Current Income Tax

Current Income Tax is measured at the amount expected to be paid to the tax authorities in accordance with local laws of various jurisdiction where the Company operates.

b) Deferred Tax:

Deferred tax is provided using the balance sheet approach on differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The tax rates and tax laws used to compute the tax are those that are enacted or substantively enacted at the reporting date.

Current and Deferred Tax are recognised in the Statement of Profit and Loss except to items recognised directly in Other Comprehensive income or equity, in which case the deferred tax is recognised in Other Comprehensive Income and equity respectively.

g) Leases

As a lessee

Lease of assets, where the Company, as a lessee, has substantially assumed all the risks and rewards of ownership are classified as finance leases. Assets acquired on finance lease are capitalised and depreciated as per Company's policy on Property, Plant and Equipment. Finance lease are measured at the lease's inception at the lower of fair value of the leased property and the present value of the minimum lease payments. The corresponding lease rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease

period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each year.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to Statement of profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

As a lessor

Lease income from operating leases where the Company is a lessor is recognised as income in the Statement of profit or loss on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases.

h) Cash flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipt or payments and item of income or expense associated with investing or financing cash-flows. The cash flow from operating, investing and financing activities of the Company are segregated.

i) Earnings per share

The Company presents Basic and Diluted earnings per share data for its equity shares. Basic and Diluted earnings per share is calculated by dividing the profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the year.

j) Contingent Liabilities

Contingent liabilities exist when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or nonoccurrence of one or more uncertain future events not wholly within the control of the Company, or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required or the amount cannot be reliably estimated. Contingent liabilities are appropriately disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

k) Borrowing Costs

Borrowing costs directly relating to the acquisition, construction or production of a qualifying capital project under construction are capitalised and added to the project cost during construction until such time that the assets are substantially ready for their intended use i.e. when they are capable of commercial production. Where funds are borrowed specifically to finance a project, the amount capitalised represents the actual borrowing costs incurred. Where surplus funds are available out of money borrowed specifically to finance a project, the income generated from such current investments is deducted from the total capitalized borrowing cost. Where the funds used to finance a project form part of general borrowings, the amount capitalised is calculated using a weighted average of rates applicable to relevant general borrowings of the company

during the year. Capitalisation of borrowing costs is suspended and charged to profit and loss during the extended periods when the active development on the qualifying assets is interrupted.

1) Useful economic lives and impairment of other assets

Property, plant and equipment other than mining rights are depreciated over their useful economic lives. Management reviews the useful economic lives at least once a year and any changes could affect the depreciation rates prospectively and hence the asset carrying values. The Company also reviews its property, plant and equipment, for possible impairment if there are events or changes in circumstances that indicate that carrying values of the assets may not be recoverable. In assessing the property, plant and equipment for impairment, factors leading to significant reduction in profits such as changes in prices, the Company's business plans and changes in regulatory environment are taken into consideration.

The carrying value of the assets of a cash generating unit (CGU) is compared with the recoverable amount of those assets, that is, the higher of fair value less costs of disposal and value in use. Recoverable value is based on the management estimates of prices, market demand and supply, economic and regulatory climates, long-term plan, discount rates and other factors. Any subsequent changes to cash flow due to changes in the above mentioned factors could impact the carrying value of the assets.

To the Independent Auditor's Report on the Consolidated Ind AS Financial Statements of Magellanic Cloud Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Magellanic Cloud Limited ("the Company") as of 31st March 2019 in conjunction with our audit of the Consolidated Ind AS Financial Statements of the Company for the year ended on that date

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Company, are responsible for establishing and maintaining internal financial controls based on the internal controls with reference to financial statements criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the provention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company, internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The proceduras selected stepend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial control system with reference in than of statements.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and precedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company, have in all material respects, an adequate internal financial control system with reference to consolialated financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31st March 2019, based on the internal controls with reference to financial statements criteria established by the Company. considering the essential components of internal controls stated in the Guidance Note issued by the KAL

1. Company overview

South India Projects Limited ("the company") has its place of business is in Hyderabad and registered office is in Kolkatta.

2. Basis of preparation of financial statements

a) Accounting convention

The financial statements are prepared in accordance with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by the companies (Indian Accounting Standards) Amendment Rules, 2016

b) Basis of measurement

The financial statements have been prepared on an accrual basis and in accordance with the historical cost convention, uness otherwise stated. These financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act. All assets and liabilities are classified into current and non-current based on the operating cycle of less than twelve months or based on the criteria of realisation/settlement within twelve months period from the balance sheet date.

Subsidiaries included in consolidation

Name of Enterprises	Country of incorporation	Nature of Business	Controlling Interest
JNIT Technologies INC	USA	IT Consultancy	100%

c) Key accounting judgement, estimates and assumptions

The preparation of the financial statements required the management to exercise judgment and to make estimates and assumptions. These estimates and associated assumptions are based on historical experiences and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an on-going basis. Revision to accounting estimates are recognised in the period in which the estimate is revised, if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future period.

d) Functional and presentation currency

The functional and presentation currency of the Company is the Indian Rupee

e) Foreign currency transaction

Foreign currency transactions are translated at the exchange rate that approximates the prevalent exchange rate on the transaction date. Monetary assets and liabilities in foreign currencies are translated at the year-end rate. Non-monetary assets and liabilities

denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

3. Significant Accounting Policies

The Company has applied the following accounting policies to all periods presented in the financial statements.

Basis of Consolidation Subsidiary

The consolidated financial statements incorporate the results of South India Projects Limited and its subsidiaries, being the entities that it controls. Control is evidenced where the Group has power over the investee or is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Power is demonstrated through existing rights that give the ability to direct relevant activities, which significantly affect the entity returns.

The financial statements of subsidiaries are prepared for the same reporting year as the parent company. Where necessary, adjustments are made to the financial statements of subsidiaries to align the accounting policies in line with accounting policies of the Group. Intra-Group balances and transactions, and any unrealized income and expenses arising from intra-Group transactions, are eliminated in preparing the consolidated financial statements. Unrealized losses are eliminated unless costs cannot be recovered.

a) Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable, and represents amounts exclusive of excise duty receivable for goods supplied, stated net of discounts, returns and value added taxes. The company recognises revenue when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the entity, and when specific criteria have been met for each of the Company's activities, as described below.

Sale of Goods and services

Sales are recognised when the significant risks and rewards of ownership of the goods are transferred to the buyer as per terms of contract. Income and fees from services are accounted as per terms of relevant contractual agreements/arrangements.

Revenue from sale of power is recognised when delivered and measured based on rates as per bilateral contractual agreements with buyers and at rate arrived at based on the principles laid down under the relevant Tariff Regulations as notified by the regulatory bodies, as applicable.

Interest Income

Interest income is recognised on accrual basis as per the terms of relevant contracts or by using the effective interest method, where applicable

Investment income

Incomes from investments are accounted on an accrual basis.

b) Property, Plant and Equipment Transition to Ind AS:

The Company has elected to continue with the not carrying value of all its property, plant and equipment recognized as of April 1, 2016 (transition date) as per the previous GAAP and use that carrying value as its deemed cost.

- i) Recognition and measurement: Property, plant and equipment are carried at cost of acquisition less accumulated depreciation and accumulated impairment loss, if any. Subsequent expenditure related to an item of fixed asset are added to its book value only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All repairs and maintenance are charged to the Statement of Profit and Loss during the financial year in which they are incurred.
- ii) Depreciation: Depreciation of other items of Property, Plant and Equipment are provided on a straight line basis over the estimated useful life of the asset or as prescribed in Schedule II to the Companies Act, 2013 or based on technical evaluation of the asset. Estimated useful life of items of property, plant and equipment are as follows:

Type of Asset	Estimated Useful Life
Freehold Land	N.A
Furniture & Fittings	10 years
Computers & Printers	3 years
Motor Vehicles	8 years
Office Equipment's	5 years

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

The Company assesses at each balance sheet date whether there is objective evidence that an asset or a group of assets is impaired. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing the sale proceeds with the carrying amount and are recognised within operating profit in the Income statement.

c) Financial Instruments

Financial Assets

The Company classifies its financial assets in the following categories:

my my

 Financial assets at amortised cost - Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost.

They are presented as current assets, except for those maturing later than 12 months after the reporting date which are presented as non-current assets. Financial assets are

measured initially at fair value which usually represents cost plus transaction costs and subsequently carried at amortised cost using the effective interest method, less any impairment loss if any.

Financial assets at amortised cost are represented by trade receivables, security and other deposits, cash and cash equivalent, employee and other advances.

- Equity investments Investment in subsidiaries/associates are stated at cost. All other equity investments are measured at fair value, except for certain unquoted equity investments which are carried at cost where the fair value of these investments cannot be reliably measured.
- iii) Financial Assets at Fair Value through Other Comprehensive Income (FVTOCI) For investments which are not held for trading purposes and where the company has exercised the option to classify the investment as at FVTOCI, all fair value changes on the investment are recognized in OCI. The accumulated gains or losses on such investments are not recycled to the Statement of Profit and Loss even on sale of such investment.
- iv) Financial assets at Fair Value through Profit and loss (FVTPL) Financial assets other than the equity investments and investment classified as FVTOCI are measured at FVTPL. These include surplus funds invested in mutual funds etc.
- v) Impairment of financial assets. The Company assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Financial liabilities

Initial recognition and measurement

Financial liabilities are measured at amortised cost using effective interest method. For trade and other payable maturing within one year from the Balance Sheet date, the carrying value approximates fair value due to short maturity.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Balance Sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

d) Employee benefits

The Company operates various post-employment schemes, including both defined benefit and defined contribution plans:

Defined contribution plan:

Contributions to defined contribution schemes such as contribution to Provident Fund. Employees' State Insurance Corporation, National Pension Scheme and Labours Welfare Fund are charged as an expense to the Statement of Profit and Loss based on the amount of contribution required to be made as and when services are rendered by the employees.

The above benefits are classified as Defined Contribution Schemes as the Company has no further defined obligations beyond the monthly contributions.

Defined benefit plan:

Gratuity:

Gratuity liability is a defined benefit obligation and is computed on the basis of an actuarial valuation by an actuary appointed for the purpose as per projected unit credit method at the end of each financial year. The liability or asset recognised in the Balance Sheet in respect of defined benefit pension and gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The liability so provided is paid to a Trust administered by the Company, which in turn invests in eligible securities to meet the liability as and when it accrues for payment in future. Any shortfall in the value of assets over the defined benefit obligation is recognised as a liability with a corresponding charge to the Statement of Profit and Loss. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on Government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur directly in Other Comprehensive Income. They are included in retained earnings in the Statement of changes in equity and in the Balance Sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

e) Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. If the effect of the time value of money is material, provisions are discounted. The discount rate used to determine the present value is a pre- tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

f) Income Tax

a) Current Income Tax

Current Income Tax is measured at the amount expected to be paid to the tax authorities in accordance with local laws of various jurisdiction where the Company operates.

b) Deferred Tax:

Deferred tax is provided using the balance sheet approach on differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The tax rates and tax laws used to compute the tax are those that are enacted or substantively enacted at the reporting date.

Current and Deferred Tax are recognised in the Statement of Profit and Loss except to items recognised directly in Other Comprehensive income or equity, in which case the deferred tax is recognised in Other Comprehensive Income and equity respectively.

g) Leases

As a lessee

Lease of assets, where the Company, as a lessee, has substantially assumed all the risks and rewards of ownership are classified as finance leases. Assets acquired on finance lease are capitalised and depreciated as per Company's policy on Property. Plant and Equipment Finance lease are measured at the lease's inception at the lower of fair value of the leased property and the present value of the minimum lease payments. The corresponding lease rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each year.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (not of any incentives received from the lessor) are charged to Statement of profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

h) Cash flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deterrals or accruals of past or future operating cash receipt or payments and item of income or expense associated with investing or financing cash-flows. The cash flow from operating, investing and financing activities of the Company are sogregated.

i) Earnings per share

The Company presents Basic and Diluted earnings per share data for its equity shares. Basic and Diluted earnings per share is calculated by dividing the profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the year.

i) Contingent Liabilities

Contingent liabilities exist when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or nonoccurrence of one or more uncertain future events not wholly within the control of the Company, or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required or the amount cannot be reliably estimated. Contingent liabilities are appropriately disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

k) Burrowing Costs

Borrowing costs directly relating to the acquisition, construction of production of a qualifying capital project under construction are capitalised and added to the project cost during construction until such time that the assets are substantially ready for their intended use i.e. when they are capable of commercial production. Where funds are borrowed specifically to finance a project, the amount capitalised represents the actual borrowing costs incurred. Where surplus funds are available out of money borrowed specifically to finance a project, the income generated from such current investments is deducted from the total capitalized borrowing cost. Where the funds used to finance a project form part of general borrowings, the amount capitalised is calculated using a weighted average of rates applicable to relevant general borrowings of the company during the year. Capitalisation of borrowing costs is suspended and charged to profit and loss during the extended periods when the active development on the qualifying assets is interrupted.

1) Useful economic lives and impairment of other assets

Property, plant and equipment other than mining rights are depreciated over their useful economic lives. Management reviews the useful economic lives at least once a year and any changes could affect the depreciation rates prospectively and hence the asset carrying values. The Company also reviews its property, plant and equipment, for possible impairment if there are events or changes in circumstances that indicate that carrying values of the assets may not be recoverable. In assessing the property, plant and equipment for impairment, factors leading to significant reduction in profits such as changes in prices, the Company's business plans and changes in regulatory environment are taken into consideration.

The carrying value of the assets of a cash generating unit (CGU) is compared with the recoverable amount of those assets, that is, the higher of fair value less costs of disposal and value in use. Recoverable value is based on the management estimates of prices, market demand and supply, economic and regulatory climates, long-term plan, discount rates and other factors. Any subsequent changes to cash flow due to changes in the above mentioned factors could impact the carrying value of the assets.
